

Limited Warranty

Enkei International, Inc.

Under normal and reasonable use, **WHEEL FINISH** is warranted against defects in material and workmanship for one year from date of original retail purchase. The chrome finish on forged wheels is warranted for four years from date of original retail purchase.

Caps, cap screws, cap locks, emblems, valve stems, hub rings, and other accessories are warranted against cosmetic and structural defects in material and workmanship for one year from date of original retail purchase. Problems with screws and locks that are broken, stuck, and/or cannot be properly removed are covered by this warranty for 1 year from date of purchase. Conditions such as these are typically the result of corrosion and can be avoided with proper care and routine maintenance.

Under normal and reasonable use, Enkei wheels are warranted against **STRUCTURAL DEFECTS** in material and workmanship for as long as the original retail purchaser owns the product.

For any item determined solely by Enkei International, Inc. to be defective in material or workmanship, Enkei International, Inc. shall have the option of replacing the product, refunding the purchase price, or repairing the product. Enkei International, Inc.'s sole obligation under this warranty is limited to these options.

This warranty shall in no event apply to:

- Any defect, malfunction, or failure caused by damage to wheels in transit, off-road use, road conditions, or abuse, misuse, accident, or negligence.
- Wheels that have been altered, modified, or repaired.
- Wheels that have not been installed in accordance with Enkei International, Inc.'s instructions, or which have been installed on incorrect tire sizes, or used with excessive vehicle loads.
- Wheels that have been mounted with accessories not approved by Enkei International, Inc., including, but not limited to, center caps.
- Wheel corrosion or cosmetic flaws occurring after purchase due to road conditions, impact damage including stone, or road debris impact, climate conditions, neglect, or the use of any cleaning agent other than non-abrasive soap and water.
- Appearance defects in wheels that were sold as "blemished" or "as-is" product.
- Tire-to-fender clearances and/or tire-to-suspension clearances.
- Any damage resulting from mounting equipment, improper balance weights, incorrect installation, maintenance, or repair, attachments or accessories not approved by Enkei International, Inc., or any other outside influence at the sole discretion of Enkei International, Inc.

This warranty does not cover accident, neglect, or abuse. The warranty is void if Enkei International, Inc. does not approve the application or if the wheel is altered in any way (including but not limited to: disassembly of multi-piece wheels by anyone other than Enkei, painting or plating by anyone other than Enkei, polishing, machining, or drilling by anyone other than Enkei.) Warranty is also void if the appropriate hardware is not utilized. Use of non-approved fasteners may void warranty. All warranty coverage is solely at the discretion of Enkei International, Inc.

This warranty is valid only when the wheel is returned to the authorized dealer from whom it was purchased or directly to Enkei International, Inc. at the address below, freight prepaid, with proof of purchase. A "Returned Goods Authorization" number issued by Enkei International, Inc. is required in advance of returns to Enkei.

(warranty continued on reverse)

(warranty continued from front)

THIS LIMITED WARRANTY IS THE SOLE AND EXCLUSIVE WARRANTY GIVEN WITH RESPECT TO THE WHEELS. ALL OTHER EXPRESS AND IMPLIED WARRANTIES ARE HEREBY DISCLAIMED AND EXCLUDED. ENKEI INTERNATIONAL, INC. HEREBY EXPRESSLY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE. ENKEI INTERNATIONAL, INC. ALSO EXPRESSLY DISCLAIMS ANY REPRESENTATIONS OR EXPRESS WARRANTIES MADE BY ANY INDIVIDUAL OR CONTRACT OTHER THAN THOSE FOUND HEREIN. NEITHER ENKEI INTERNATIONAL, INC. NOR ANY AUTHORIZED DEALER WHO SELLS THE WHEELS IS RESPONSIBLE FOR INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES IN EXCESS OF PURCHASER'S EXCLUSIVE REMEDY AS STATED HEREIN. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR DO NOT ALLOW THE EXCLUSION OR LIMITATIONS OF CERTAIN DAMAGES AND, ONLY TO SUCH EXTENT, THE FOREGOING MAY NOT APPLY TO YOU. REPAIR, REPLACEMENT, OR REFUND, AT ENKEI INTERNATIONAL, INC.'S SOLE OPTION, IS PURCHASER'S SOLE AND EXCLUSIVE REMEDY FOR ANY BREACH HEREOF. THIS WARRANTY EXPIRES UPON TRANSFER OF WHEELS FROM THE FIRST CONSUMER CUSTOMER.

This warranty gives you specific legal rights. You may also have other rights that vary from state to state.

Tips for Owners

- Have wheel lug nuts re-torqued to specification immediately after 25 miles of use following each installation.
- Keep this information / warranty sheet, and give it to the new owner if you sell your vehicle.
- Cleaning wheels with scouring pads or mag polish may damage wheels.
- If you use automatic car washes, it is suggested that steam cleaners or strong chemicals not be used to clean your wheels as these agents could cause damage.
- When cleaning tires, avoid contact with the wheels as harsh chemicals or tire cleaners will damage the wheel finish permanently.
- Cold water applied to extremely hot wheels may damage the wheels.
- If you have an accident or hit a hard object (curb, pothole, etc.) or detect any visual damage, always have wheels inspected for a fracture or other impairment by an Enkei International, Inc. retailer. If a serious problem is noted, replace the wheel immediately.

CLEANING

To ensure maximum performance and appearance and to combat the corrosive effects of road grime, brake dust, etc., we suggest regular cleaning of wheels, once per week in some cases, depending upon driving habits.

What To Use - Most Enkei aluminum wheels have a clear-coat finish, like most of today's automobiles. This coating offers protection and makes wheels easy to clean. Most household cleaners are too harsh for use on this finish and should be avoided. Even some products that are suggested as effective wheel cleaners contain acid or lye, which makes them too harsh for use. Having conducted careful studies, Enkei International, Inc. recommends the use of mild non-abrasive soap with water for cleaning of its aluminum wheels. These are the only factory-approved agents to be used for cleaning Enkei wheels.
